

# Visual Augmented Cello Technical Specifications

---

## Specifications:

- Motion Sensing: 9 DOF IMU
- Vibration Sensing: 1 piezoelectric sensor
- LEDs: RGB chip
- Connectivity: WiFi LAN – OSC based data communication
- Parts :
  - 1 Glove with Wemos D1 mini
  - 1 Circuit for bridge with The Thing Dev board.
  - 1 Circuit for cello body with The Thing Dev board.
- Weight: N/A
- Serial Number: N/A

## Requirements:

- 3.3V Li-Po battery power supply
- Self-contained system.

## Development details:
